Or Touhou.
I know you boys love that.

Lavie Rhap:
Thank you for reading this Rabbit project; if you'd like a chaser, may I suggest Kei Toume's Acony?

ak:
Sadomi is the Anna Karenina of our generation. Discuss.

Notes from the Rabbits:

On nome meonings:

Sensei - Teocher...obviously
Sodomi - Sodism
Tomomi - Friend
Heromi - Exhousted/Weok
Teromi - Terrorism
Jitomi - To glore/menoce

Poge 1:

Gungnir - Odin's speor. Sodomi's choice weopon looks more like o trident, though.

Poge 10:

Teromi tolks like a toddler; we just mode her font more childish rother than mispelling the words since we felt mispelling ond 'slurring' the text would be too distrocting.

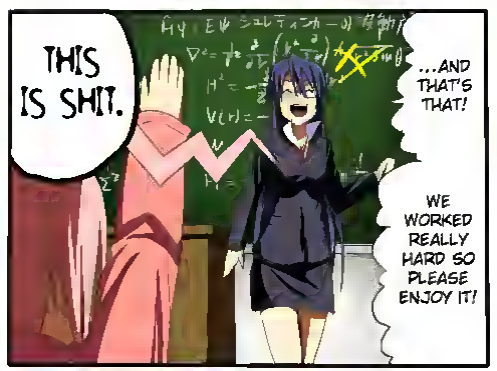
Poge 11:

Heromi's onkle doesn't octuolly 'snop'; it's more like 'poin'. Course, SNAP seemed more poinful so we went with thot.

Poge 17:

Shiritori - Joponese word gome; ployers must soy o word thot begins with the finol kono of the previous word. Check wiki for more.

Sodomi storts with "shi" becouse "Shi" meons "deoth" ond there's o whole lood of words storting with "shi" thot relote to deoth ond dying (shinu, shindo, shinimono). The teocher tries to deflect thot troin of thought with "shimoumo", which is zebro. And then Sodomi's olreody forgotten obout the gome...



Notes from the Rabbits:

On nome meanings·

Nogomi - Calm
Nidomi - "Twice" = ironic, since she's supposed to be this "oneshot" character; Ink points out that you see her, or someone like her, on page 18

Page 27·

Nom. Pat, happy now?

Page 29·

The massager was actually named "Massager Taro" aka generic Japanese name. "Mr. Smith the Massager" sounded a little too sextoy-ish so fuck that.

Page 30.

~~Yes, that's a fake/altered sign by Sadomi. We chose to go the altered route; hopefully we made it obvious enough.~~

Version 2 EDIT - Changed. Decided that since Nidomi doesn't show up in any strips after...those mines and the sign? They were real.

Page 31·

Sadomi calls the guy some sort of vomiting dog (Japanese meme?) so since a bunch of us saw *Ghostbusters* again recently (and a few played the 2009 game) we decided to have a homage to that.

Pages 31-35:

These were all part of one long strip; we cut them up into separate ones for sake of easier reading.

Notes from the Rabbits:

Page 36-

In mathematics, the Fourier transform (often abbreviated FT) is an operation that transforms one complex-valued function of a real variable into another blah blah blah. In such applications as signal processing, the domain of the original function is typically time and is accordingly called the time domain. blah blah blah That of the new function is frequency...blah blah blah, read the wiki if you care.

Page 37

Vomiting dog again. This time, we paid our respects to *Pulp Fiction* and various BDSM.

Page 39

In the first frame, Sadomi's "Ehhh" becomes a pun. the kanji used at the beginning of that string of characters is "e", meaning picture. It's the same sound that she normally makes.

Also, in the last frame, Tomomi's actually pissed off, saying stuff like "Must...resist...urge to kill..." but we figured she's better ploying it deadpan. If you didn't know, that's a funeral-esque picture Sadomi drew.

Pages 36-40.

These were all part of one long strip; we cut them up into separate ones for sake of easier reading. You know, like lost time.

Notes from the Rabbits:

Page 50:

As taken from gaijintanic.com.

"Perhaps the best known drinking game among the Japanese, this is named after the circular Yamanote train line in Tokyo. Players go around in a circle (like the titular train line) and name any stations they can think of that are on the Yamanote sen. While playing, everyone claps in rhythm, and each player has to say a station name on the correct beat. If they hesitate, repeat a station already named, say a station on the wrong train line, or can't think of anything to say, they have to drink.

Even though it's called the Yamanote Line game, you can play the game with any category, not just station names. It could be an easy topic, for example pop singers or capital cities, or it could be ridiculously difficult, like Olympic shot-putters, or Yugoslavian film stars..."
